

Quality Policy

- ④ Our main goal is to supply products that meet the needs and expectations of our clients over the complete life cycle established for each product.
- ④ Quality through preventive work, adequate costs and terms, are the main factors at our quality policy.
- ④ The guarantee of quality integrated to all the workflow, from marketing to technical assistance, always calls for the need for continuous improvement in quality of the manufactured products.
- ④ The awareness of "getting it right at the first time" is called up throughout the company and to each employee.
